REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The record is clear on the issues. However, examiner notes that the lower guide arrangement with guide roller sets wherein each of the sets of guide rollers defines a respective set diameter and the set diameters increase nonlinearly in the direction of travel of the pipeline during laying in combination with the structures and method steps claimed reads over the prior art, other than USP 6524030, over which is a terminal disclaimer. This limitation, originally in the PCT as claim 5, was also not found by the EPO in its search.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Katherine W. Mitchell whose telephone number is 571-272-7069. The examiner can normally be reached on Mon - Thurs 10 AM - 8 PM.
